Why did you start flying?	When I was 20 years old I decided to follow my father on one work trips. At the time he was an airline pilot for Delta Air Lines. Seeing what that life style was like and then daydreaming of becoming an airline pilot myself is how I caught "the bug." Before I knew it, I was heading out to the University of North Dakota to pursue a degree in Commercial Aviation.

Tell us about your favorite flying adventure

As a flight instructor for the University of North Dakota I loved doing cross countries with my multiengine students in the Seminole. At the time we had a large number of contract Chinese students from Air China. We would fly over to MSP and go out for their favorite Chinese dish (hotpot). Great memories flying with them!

Why did you join The 99s?

I wanted to meet other women in aviation and get more involved in the aviation community.
