Why did you start flying?	It was always in the back of my mind. My dad flew me around in his Aeronca Champ when I was little. That changed me forever. . . Never thought it was something a girl could do. Was around aircraft in the Air Force, and my first husband worked on avionics in the Air National Guard. However, I was told that "girls don't do that". One day in my retirement, I said, "Why not? If not now, when?" Didn't start training until I was in my 60s.
